Compliance Tool

- Compliance Tool scans DTS vouchers for adherence to specific policy items

For a full listing of policy items, see
“Travel Policy Compliance Tool
Information Paper”

*(Available on DTMO website &
Travel Explorer)*

How the Compliance Tool Works

Compliance Tool (CT)

- CT queries DTS for vouchers containing policy violations (errors)
- CT creates a record
 - One voucher to one record
 - One record may contain multiple errors
 - Records classified by DTS organization

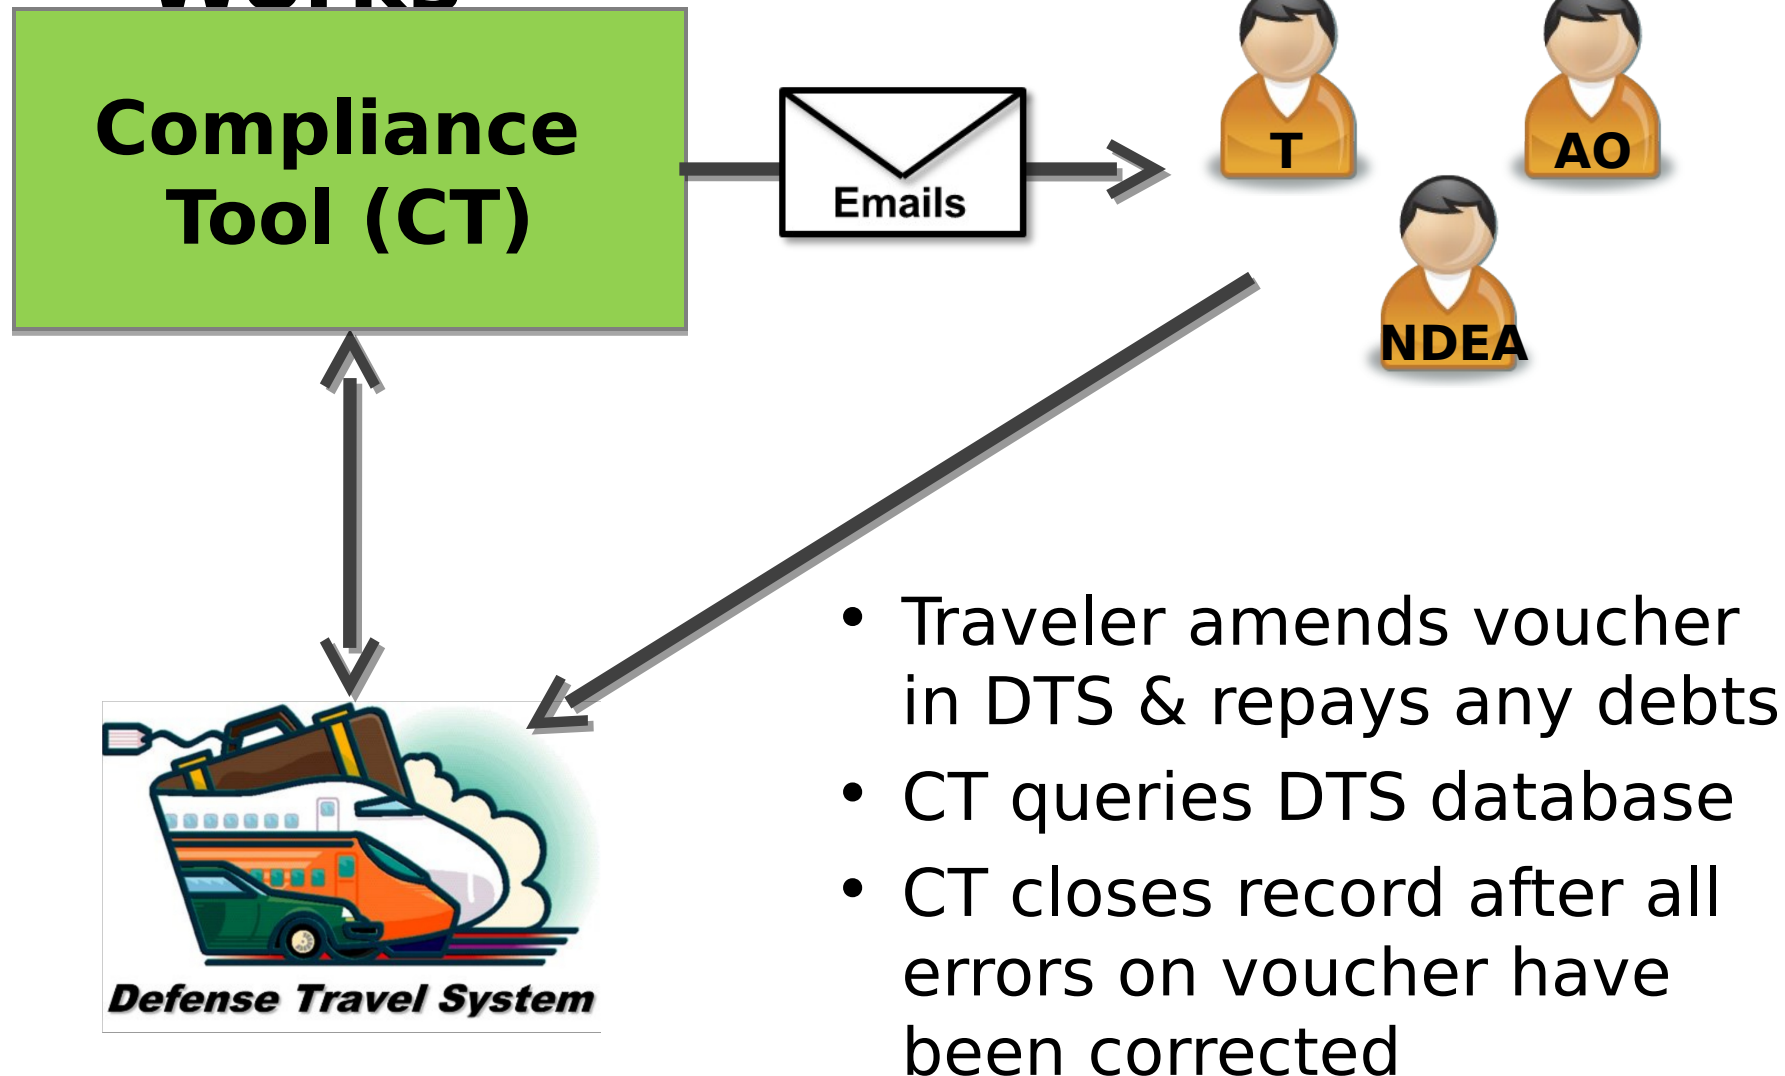

How the Compliance Tool Works

- When CT creates a record, it sends an email to:
 - Traveler
 - Authorizing Official (AO)
 - Non-DTS Entry Agent (NDEA) – if applicable
- Records not corrected receive reminder emails from CT

How the Compliance Tool Works

Questions?

Role of CTA

- Reviews records / errors for organization
 - Includes any sub-organizations
- Ensures errors are corrected in DTS
- Runs reports from CT
- Grants CT access to others
- Other responsibilities, per local business rules

Component-specific Procedures

- Check with your leadership regarding:
 - Required frequency of accessing the CT
 - Timeframe for travelers to resolve errors
 - Administrative actions against a traveler / AO that has not corrected an error
 - Reporting requirements
 - Requirements before granting access to a new CTA

CT Report

- Identify search criteria on Generate Reports Screen

The screenshot shows the "Generate Reports" screen in the Defense Travel Management Office system. At the top, there is a navigation bar with a "BACK TO REPORT SEARCH" button and several icons (P, Home, Search, Bookmarks, Settings, DTS, and Power). Below the navigation bar, the interface displays a table of report data. The table has columns for Status, Age, TANUM, DTS Org, People, Errors, and Error Amt. The first three rows of data are visible, each showing a report with a status of "Open", an age of "0 days", and a specific TANUM and DTS Org. The "People" column lists the names of the individuals associated with each report. The "Errors" column shows a count of 3 for each report, and the "Error Amt" column shows the total error amount in red text. A "Create Excel/CSV File" button is located in the top right corner of the table area.

Admin Access - Overview

Follow your local procedures about granting access

- Records tied to a DTS organization
 - CT access includes access to any suborg records
- CT access independent of DTS org access
 - E.g., DTA that has DTS org access to DD14 not automatically given access to DD14's CT records
- Two types of CTA access:
 - Granting privileges for one or more orgs
 - No granting privileges
